Thought Leaders Join Zscaler at Zenith Live Europe to Discuss the Secure, Cloud-Enabled Digital Future

October 17, 2018

Zscaler user conference will feature leaders in cloud transformationfrom industry giants such as Microsoft, Siemens, LVMH, and Carlsberg Group

SAN JOSE, Calif. & LONDON--(BUSINESS WIRE)--Oct. 17, 2018-- Zscaler, Inc. (NASDAQ: ZS), the leader in cloud security, today announced Zenith Live Europe, Zscaler's inaugural European user conference, taking place at Sofitel London Heathrow Hotel from October 21–23, 2018.

Zenith Live was created to provide Zscaler customers, partners, and industry thought leaders a forum to discuss the possibilities of a secure, cloud-enabled digital future. The conference will feature interactive sessions for CXOs, network and security architects and practitioners, and operations professionals that will provide insights and skills development for those driving IT transformation across enterprise organizations. In addition to general sessions and keynotes, the conference includes certification training and nearly two dozen breakout sessions covering network transformation, application transformation, and security transformation.

Industry leaders from such global organizations as Microsoft, Orange Business Services, Boehringer Ingelheim, Mondi Group and thyssenkrupp will share insights, advancements and best practices for secure cloud transformation in keynote and general sessions.

The full conference agenda can be found at https://zenithlive.zscaler.com/page/1359644/agenda.

Replays of the presentations will be available on the Zenith Live website within 24 hours of completion of each event. Visit https://zenithlive.zscaler.com/.

About Zscaler

Zscaler (Nasdaq: ZS) enables the world's leading organizations to securely transform their networks and applications for a mobile and cloud-first world. Its flagship services, Zscaler Internet Access™ and Zscaler Private Access™, create fast, secure connections between users and applications, regardless of device, location, or network. Zscaler services are 100% cloud delivered and offer the simplicity, enhanced security, and improved user experience that traditional appliances or hybrid solutions are unable to match. Used in more than 185 countries, Zscaler operates a multi-tenant, distributed cloud security platform that protects thousands of customers from cyberattacks and data loss.
