Zscaler Announces Election of David Schneider to its Board of Directors

January 16, 2020

SAN JOSE, Calif.--(BUSINESS WIRE)--Jan. 16, 2020-- Zscaler, Inc. (NASDAQ: ZS), the leader in cloud security, today announced that Zscaler stockholders elected David Schneider to its Board of Directors at the annual stockholder meeting held January 10, 2020. Schneider is President, Global Customer Operations at ServiceNow. Mr. Schneider's term will expire at the 2022 annual stockholder meeting.

"David is an inspirational technology leader with deep experience scaling and growing disruptive SaaS companies. ServiceNow is one of the greatest cloud businesses in history, and he has been leading its growth since before their IPO. He is a tremendous addition to our Board of Directors," said Jay Chaudhry, Chairman and CEO of Zscaler. "I also want to thank Nehal Raj, who is leaving the board after more than four years of service to Zscaler, for his leadership and contributions over the past few years."

"Cloud is driving digital transformation at an unprecedented rate, and Zscaler is positioned at the center of this market opportunity with one of the world's largest cloud security platforms," said Schneider. "I'm excited to be part of the exceptional team at Zscaler to help organizations securely move to a cloud and mobile-first world."

Schneider is a proven technology leader with more than 25 years of experience. He has served in several senior leadership positions at ServiceNow since 2011, including as Chief Revenue Officer prior to his promotion to President, Global Customer Operations. He previously held senior leadership positions at several organizations including EMC and Data Domain.

About Zscaler

Zscaler (NASDAQ: ZS) enables the world's leading organizations to securely transform their networks and applications for a mobile and cloud-first world. Its flagship services, Zscaler Internet Access™ and Zscaler Private Access™, create fast, secure connections between users and applications, regardless of device, location, or network. Zscaler services are 100 percent cloud-delivered and offer the simplicity, enhanced security, and improved user experience that traditional appliances are unable to match. Used in more than 185 countries, Zscaler operates a multi-tenant distributed cloud security platform, protecting thousands of customers from cyberattacks and data loss.
